# MPLS Mesh

## Upgrade Your Network to a High Performance, Flexible and Secure IP-Based Solution

AireSpring's MPLS IP-VPN meshed network is the ultimate product for organizations requiring fully meshed, any-to-any private IP networking. Unlike traditional MPLS or Wide Area Networking (WAN) solutions, our fully meshed network allows you to select the most cost effective access for each of your locations and combine them seamlessly and securely. All services are protected with preconfigured geographically diverse alternate routes to mitigate core network disruptions.

## FEATURES

- Fully managed cloud communications suite over MPLS available
- Seamlessly normalizes end-to end Class of Service (CoS) over multiple underlying networks for comprehensive QoS
- Available IPsec networking for off network sites
- Geo-redundant diversity built into the network
- Optional WAN failover available
- Connectivity options from DS1 to Gigabit Ethernet

## ACCESS OPTIONS

A variety of options let you choose the connectivity that is right for your business

- Fast Ethernet
- Gigabit Ethernet
- DS1 – 1.5 Mbps, Bonded 3.0 to 12 Mbps
- DS3 (Full Port and Fractional)
- OC3
- OC12
- Ethernet over Copper available in expanded coverage areas

If you're looking for a network solution that combines security and flexibility with built in affordability, AireSpring's MPLS IP-VPN is the solution for you. Contact an AireSpring authorized partner today to learn more about MPLS MESH.

# The AireSpring Advantage

## AIreCONTROL

AIreCONTROL is our proprietary AI-powered, cloud-based IT Service Management (ITSM) platform that provides 360 degrees of complete visibility and control, consolidating every aspect of your network, and unifying every process, device, circuit, and data point onto a single cloud-based platform.

## Tier 3 Engineer POD Support

We replace outdated legacy, reactive support models with Dedicated Tier 3 Engineering AIrePODs. Your Assigned Engineering POD stays with you from end to end and is available to assist within 10 minutes of opening a case.

## Single-Source Global Provider

AireSpring partners with more than 265+ carriers and cable companies in over 190 countries to directly source connectivity and deliver a complete single-source managed solution.

## Global Field Services

Our field services capabilities supplement your in-house IT team globally to fulfill on-site implementation requirements, including site surveys, structured cabling, extended wiring, equipment configuration and installation of IP phones, POTS replacement, Wi-Fi access points, switches, routers, and SD-WAN and firewall appliances.

## One Company. Single Point of Contact.

We eliminate the drain on your resources and costly expense of vendor sprawl. All services are delivered by a single vendor on a fully managed service, which allows you to avoid the finger-pointing and vendor blame game that occurs when you have services delivered by a different vendor than your connectivity.

## Award-Winning Customer Experience

AireSpring has won over 100 coveted industry awards, most notably the 2025 People's Choice Stevie Award for Favorite Customer Service, as well as multiple Stevie Awards for Favorite Customer Service Team.

## Family Owned and Operated Since 2001

AireSpring is an established name in the industry that you can count on for your communications. We've been in business for over two decades and are profitable and debt-free.

## Escalation List Up to Our CEO

We stand behind our service 100%! In fact, we're so committed to ensuring complete satisfaction that we provide all our customers with an escalation list giving you access to our executive management all the way up to our CEO.
