Fortinet SASE SD-Branch Secures the Network Edge at the Branch

airespring™ Managed Solutions. Personalized Service. | ENGAGE FORTINET EXPERT PARTNER Integrator, MSSP

AireSpring is a Certified MSSP Fortinet Expert Level Partner

Advocate → Select → Advanced → Expert

Fortinet SASE SD-Branch enables security-driven networking by using the FortiGate next-generation firewall (NGFW) and broader Fortinet security fabric architecture to extend security throughout the network access layer. This includes Fortinet solutions like FortiAP (secure wireless access points) as well as FortiSwitch with FortiLink (secure Ethernet). It also includes single-pane-of-glass management of security, network access, and SD-WAN through FortiManager and FortiPortal.

AireSpring's Managed Services

- 24/7 PROACTIVE MONITORING BY OUR NOC VIA FORTIMANAGER
- CUSTOMER SELF-MANAGEMENT AND VISIBILITY VIA FORTIPORTAL
- PREDICTIVE WIRELESS RF REMOTE SURVEY AND DESIGN
- OPTIONAL ONSITE FIELD SERVICES FOR SITE SURVEY, INSTALLATION, AND WIRING
- FULLY MANAGED SOLUTION
- FULLY INTEGRATED FORTINET SOLUTION

Product Portfolio of Fortinet SASE SD-Branch

SD-WAN
- MANAGED FORTINET SD-WAN
- AIRESPRING GATEWAY ACCESS

NEXT-GEN FIREWALL
- MANAGED FORTINET NEXT-GEN FIREWALL (NGFW) WITH UTP LICENSE

BRANCH SWITCH AND WIFI
- MANAGED FORTISWITCH
- MANAGED FORTIAP

FULLY MANAGED AND MONITORED
- FORTIPORTAL
- FORTIMANAGER
- FORTIANALYZER
- 24/7 NOC

WIRELESS WAN
- MANAGED WIRELESS WAN

Fortinet Managed WiFi

Elevate your Internet WiFi Experience

Managed WiFi with FortiAP™ access points are managed centrally by the integrated WLAN controller of any FortiGate® security appliance. With the integration of the wireless controller functionality into the market-leading FortiGate appliance, these APs are perfect for campus and branch deployments. Fortinet's security fabric enables you to easily view and co-manage wired and wireless security from a single pane-of-glass management console and protects your network from the latest security threats.

DESIGNED FOR BOTH INDOOR AND OUTDOOR USE CASES
Scalable and flexible deployment from single to multi-AP WiFi network

BUILT-IN WIFI SECURITY
Protects the network from advanced wireless threats

POE SUPPORTED
All AP's powered by Power over Ethernet

MESH NETWORKING SUPPORTED
Deploy access points wirelessly

WIFI 6 CAPABLE
Compliant with the latest 802.11ax WiFi Standard

AVAILABLE IN 4 X 4 MU-MIMO WITH UP TO 1147 MBPS + 2402 MBPS
High-speed wireless connectivity

TRI-BAND RADIO ACCESS POINT
Supports 2.4GHz and 5GHz with scanning frequency

Indoor APs

FortiAP-231F

FortiAP-431F

Outdoor APs

FortiAP-234F

FortiAP-432F

Fortinet Managed Switch

Security, Performance, and Manageability

Managed Switch with the FortiSwitch™ Access Family is tailored to meet the unique demands of enterprise branch offices and small businesses. An unparalleled combination of security, ease of use, and scalability make FortiSwitch™ the ideal choice for Ethernet infrastructure.

Managing a remote enterprise branch can be a challenging task due to various factors including a lack of visibility of connected devices, limited time and tools for LAN management, and a shortage of skilled personnel. The FortiSwitch Secure Access family seamlessly integrates Ethernet networking with advanced security features, effectively eliminating the silos that hinder day-to-day management. Feature-rich and easy to manage with a low total cost of ownership, FortiSwitch emerges as the optimal choice for remote enterprise-branch and small-businesses Ethernet networks.

FortiSwitches

FortiSwitch-108F-FPOE

FortiSwitch-124F-FPOE

FortiSwitch-148F-FPOE

SECURITY FABRIC INTEGRATION
FortiLink extends Security Fabric protection to the Ethernet access layer.

ZERO-TOUCH PROVISIONING
Auto-discovery & configuration of Ethernet ports and security policies.

HIGH SCALABILITY
1, 10, 100, & multi-gig Ethernet ports & up to 100 GE uplinks scale from desktop to data center.

POE AND AUTO-PROVISIONING
Power network & IoT devices with next-generation 802.3bt POE & free IoT provisioning with FortiLink NAC.

UNPARALLELED VISIBILITY
Single console management of security & network access, including device detection & onboarding.

HIGHLIGHTS

- Ideal for SD-Branch deployments.
- Centralized security and access fully managed by AireSpring or co-managed.
- Optimal for converged network environments, enabling voice, data, and wireless traffic to be delivered across a single network.
- Up to 48 ports in a compact 1 RU form factor.
- Supports wire-speed switching.
